Report of Superintendent

To the School Board and Citizens of Dummer:

I herewith submit the annual report of Superintendent of Schools together with school statistics for the last complete school year, 1940-41.

The two schools of the town were in session for the complete year of 36 weeks with an average percentage of attendance of 96.5.

At the close of the year in June, two pupils were graduated from the eighth grade at the Willis School.

There were no eighth grade pupils at West Dummer.

At the present time five Dummer pupils are enrolled at Berlin High School. This year we will probably graduate eight pupils from our elementary grades, and thus we should expect a larger enrollment at high school for the year 1942-43. Consequently the estimate for tuition expenditures for the coming year has been increased.

Your superintendent has regularly visited and inspected classes and grades during the year and has endeavored to see that the correct amount of work has been accomplished in every grade.

This present school year opened with a new teacher at the West Dummer School—Mrs. Lila Nutbrown, who has had considerable experience. The work this year seems to be going well and with a minimum of friction.

Owing to the large enrollment (36 pupils) at the Willis School, it has seemed best to employ an assistant teacher, Miss Miriam Grover of Errol, who was secured for this position.

Miss Grover is a graduate of Plymouth Teachers' College.

It seems quite likely that the registration in this school will also be large for the year 1942-43, and provision has been made in the budget for engaging the assistant teacher for this coming year if found advisable to do so.

Statistics for the last complete school year are as follows:
